

The Mereworth Observer

Launch of new school newspaper

The launch of The Mereworth Observer is an opportunity for a variety of children and adults (Parents and staff) to observe the qualities of the school and behind the scenes action along with infor-

mation that you might not know about the school with countless extras as well.

Members of the news team are the following:

Jack B

Murran A

Ray G

Freya B

Stanley C.

The exciting start of the newspaper is

all down to Miss Maryon and the school council.

The Mereworth observer attempts printing a new issue every two weeks.

Our lovely library

Our school has always been an exceptional place, with upgrades making it even better all the time. Recently, we've had a gym equipment upgrade, and a library upgrade. The library has been one of the things in our school that hasn't been altered for years. The change began at the beginning of Term 2; the reorganizing of all the compartment storage. Our wonderful Miss Maryon and Mrs Pearson dedicated part of their half-term to reorganising and tidying our amazing

library. The librarians (years 5 & 6) are also a brilliant asset to our Mereworth library team, as they monitor all the books taken out and in, so none of our books get lost.

Our new book range includes:
Tom Gates
Diary of a wimpy kid
Captain underpants
And many more!

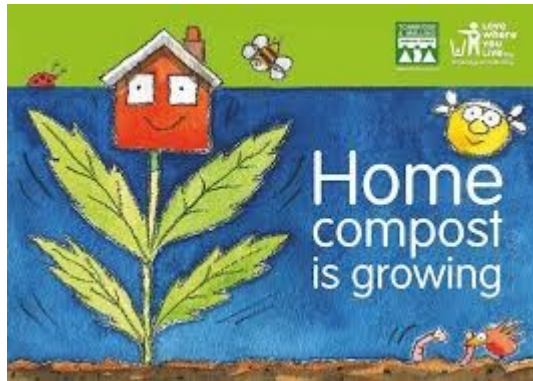

One of our own pupils, Mysti (Year 5) quoted, ``It's a lot tidier, more organized, colourful, and a much improved book range!``

Currently, a complete presentation change is in order, and builders are working to alter the shelving with the money raised by the School Council and other areas of fund raising. To this point no one knows what the library will look like after the changes.

Success in school debate

Primary schools in the nearby area, Mereworth, and nine other schools, decided to meet up to debate about the new recycling program in Tonbridge and Malling borough and debate the question, should primary school students have phones? The meeting took place in the council offices in Kings Hill. Here is a quote from one of Mereworth's School councillor.

"The debate was especially important for going forward, not just in our school, but the whole area in which we live

in."

Jack B

In conclusion, 100% of the panel said it was a good idea for the new recycling plan while 29 people said primary school students should have

Phones, while 11 said we shouldn't. This brilliant debate managed to reach a Local newspaper.

More recently, MSC (Mereworth School Council) have met with our school food suppliers to discuss our current food that we receive at lunch. We are now planning to have more tasting days and special events.

Digital date in the diary.

In addition to the school council meeting, Digital leaders may (in the summer) go to Discovery School to examine and try new equipment possibly for Mereworth School. These things will include: Virtual reality headsets, drones and an electronic program named 'Makey Makey'

which can connect to everyday items and make them into a game; such as a banana piano and other inventive, creations similar that.

Also, Internet Safety day has just gone past and we want as many people to join in. so, Digital leaders will be in the ICT suite in the summer fete to show parents what they can do to protect

their child.

Extra-ordinary exhibition

Last Friday, Every child of Mereworth Community Primary school presented their love of art to everyone by framing their chosen piece that they single-handedly made in the last month.

The Exhibition included styles of:

Collages
Water Colours
Poster paints.

There were lots of different textures included.

A member of Year 6 had this to say.

“There were lots of great pieces of artwork, and I’m glad that all parents enjoyed it as well.”

Freya B.

Given the choice to purchase the framed handiwork many parents wanted to take their children's pieces home.

Meet the teacher: Miss Maryon

Miss Maryon is the Deputy Head Teacher of Mereworth Community Primary School and she is also the part-time class teacher of Year 6. This brilliant teacher is very sporty and she goes out of her way to run a lunchtime football club for Year 6, and now Year 5.

Miss Maryon is an amazing teacher to have; she is hugely encouraging when Year 6 are in a

test, and she gives us great and valuable tips on how to become a better person. She also goes to the effort of booking the Year 6 residential trip to Swattenden two years in advance, to guarantee that they get a space.

Miss Maryon is always encouraging Year 6 to work hard, and she rewards them for their hard work by awarding them time with their Year R buddies! She is never afraid to really

get involved with the activities that Year 6 take part in anywhere. She has already won many awards for the bravery and courage that she has showed.

So, all in all, Miss Maryon is kind, encouraging, brave, helpful and just an all round great teacher.

Cool school clubs!

Choir Friday lunches

*Library all lunches
(except Wednesdays)*

Cross stich club
after school
Thursdays!

Drama Wednesday
after school

Digital leaders
year 6 Tuesday
lunch times.

Karate on Thursday
after school.

Respect cards. Can
you get one?

Is there anything you would like advertised?

Contact Jack B in Year 6.
