All children should learn the first 7 words in each list. These are key spellings that the children should know and be able to apply ready for Year 2. It is important to remember to apply these spellings in sentences as these spellings have been chosen based on the writing pieces we have completed and are often not spelt correctly.

The second set (in bold) are based on revision of split digraphs and the first couple of the alternative spellings. If you feel your child needs challenging, please learn and test the second set as well.
