Seasonal Changes
(Spring and Summer)

Spring to Summer

Aim

- I can describe how day length varies from spring to summer.
- I can identify changes in the trees and in clothes that we wear from spring to summer.

Success Criteria

- I can tell you what happens to the length of days in summer.
- I can tell you what happens to the length of the nights in summer.
- I can explain what we wear in summer.
- I can record what a tree looks like in summer.

The Four Seasons

Summer

As the seasons change from spring to summer, the temperature begins to rise, which means it gets even hotter.

In the summer trees are full of leaves and grow lots.

Shadows are easy to see in summer and happen when an object blocks out some of the Sun's light.

As spring turns to summer the days get longer and the nights get shorter. Summer has the longest days and shortest nights of all the seasons.

Day Length

Look at the number of hours of daylight we have during the summer. Can you notice anything about the numbers compared to the spring numbers?

Month	Sept	Oct	Nov	Dec	Jan	Feb	Mar	April	May	June	July	Aug
Hours of sunlight	13	11	9	8	8	10	12	14	15	16	16	14
