

## **Autumn Term Assessment Report: November 2020 for Year 1 – Year 6**

Since your child has returned to school in September 2020, we have been teaching the curriculum content for their current year group as we would normally do in Term 1. We have also been teaching a Catch-up Recovery Curriculum for the content missed during the school closure period March 2020-July 2020; one third of the school academic year. We have carried out a range of assessments throughout Term 1, to help identify the areas of the previous year group's curriculum that your child is secure in and where there are 'gaps', teachers will address these in class and through targeted interventions over the next few months.

The **Autumn Term Data Report** gives information about your child's current achievement against the National Curriculum expectations for their **previous year group**. Here are the key assessment statements:

### **Working below the previous year group curriculum:**

*Your child accesses the previous year group curriculum with support, but needs to consolidate previous learning.*

### **Beginning to work within the previous year group curriculum:**

*You child is beginning to work within the previous year group curriculum more independently.*

### **Working within the previous year group curriculum:**

*Your child is working within the previous year group curriculum, but there are areas that need consolidating to achieve 'working securely.'*

### **Working securely within the previous year group curriculum:**

*Your child is secure within the previous year group curriculum expectations and now needs to apply their knowledge and skills flexibly in a variety of contexts.*

### **Working at greater depth within the previous year group curriculum:**

*Your child is currently working at greater depth within the previous year group curriculum and needs to continue to apply independently their knowledge and skills flexibly to a wide variety of contexts.*

## **November 2020: Parent Consultation Zoom Meetings**

There will be an opportunity to discuss your child's **Autumn Term Data Report** with the Class Teacher during your one to one Parent Consultation Zoom Meeting.
